But ISO 19011:2018 has been universally embraced as the definitive blueprint for management system auditing. Why the change to the 2018 version? ISO 19011 was first introduced in 2002 as a guideline for quality and/or environmental systems auditing. At that time these were the only ISO management system standards available.

systems. When ISO published ISO 14001 in 1996, it also published guidelines on auditing environmental management systems. In 2002, these six separate quality and environmental audit standards were consolidated into one standard for both types of management system auditing. That standard is ISO 19011. When ISO 19011
