## ISOTONIC - WIKIPEDIA

## TONICITY - WIKIPEDIA

### **isotonic solution pdf**

The term isotonic may refer to; . Isotonic (exercise physiology), a type of muscle contraction Isotonic regression, a type of numerical analysis; Isotonic, one of three types of tonicity that characterize a solution's concentration; see Tonicity#Isotonicity; A sports drink that contains similar concentrations of salt and sugar to the human body

### **Isotonic - Wikipedia**

Tonicity is a measure of the effective osmotic pressure gradient, as defined by the water potential of two solutions separated by a semipermeable membrane. In other words, tonicity is the relative concentration of solutes dissolved in solution which determine the direction and extent of diffusion. It is commonly used when describing the response of cells immersed in an external solution.
