Reduced Food Waste. Project Drawdown defines reduced food waste as: minimizing food loss and wastage from all stages of production, distribution, retail, and consumption. This solution replaces current reported trends in food waste by region. Estimates suggest that 30–40 percent of all food produced worldwide is wasted across the supply chain (Smith, P. et al., 2014).

Ramadan (also known as Ramadhan or Ramzan) is the ninth month in the Islamic calendar. It is a time when Muslims around the world focus on prayer, fasting, giving to charity, and religious devotion. The last third of Ramadan is a particularly holy period, as it commemorates when the Koran's (Qu'ran) first verses were revealed to the Prophet Muhammad (Mohammad or Muhammed).

Digestion is the breakdown of large insoluble food molecules into small water-soluble food molecules so that they can be absorbed into the watery blood plasma. In certain organisms, these smaller substances are absorbed through the small intestine into the blood stream. Digestion is a form of catabolism that is often divided into two processes based on how food is broken down: mechanical and ...
